# Orthopaedic Traumatology Fellowship

## University of Washington/Harborview Medical Center Department of Orthopaedics & Sports Medicine Trauma Service

#### Mission

The mission of the Orthopaedic Traumatology Advanced Clinical Experience (OTACE) is to facilitate the development of oustanding orthopaedic trauma surgeons. The OTACE can organize a trauma team that adequately manages problems of polytraumatized patients, in academic or non-academic settings. The OTACE possesses a solid clinical foundation, as well as advanced traumatology skills.

### **Program Overview**

The Orthopaedic Traumatology Advanced Clinical Experience (OTACE) is a 12-month program designed for board eligible orthopaedic surgeons, after their residency training. By providing a complete experience involving patient care, teaching, and opportunities for basic and clinical research, the OTACE curriculum satisfies the developing criteria for a Certificate for Specific Expertise in Orthopaedic Traumatology and is accredited by the OTA Fellowship Committee guidelines and requirements. This experience exposes the orthopaedist to the organization and management of a Level 1 Academic Trauma Center, and to the function of the orthopaedic traumatologist in this setting. Clinical experience and teaching are profuse. The clinical component of the OTACE introduces the orthopaedist to many operative and nonoperative techniques used in polytrauma with special emphasis on stable internal fixation. Advanced and innovative techniques of internal fixation are emphasized.

The OTACE rotates through five individual clinical services. The clinical rotations are approximately 2.5 months in duration. Each service or team consists of the OTACE, a chief resident, a junior resident, and nurse practitioners. Medical students are frequently a component of the team. Nine full-time equivalent experienced faculty members are divided among the teams. Each team has sub-specialty emphasis and dedication. Trauma related team sub-specialty areas include acute foot/ankle trauma and post-traumatic reconstruction, complex periarticular fractures, pelvic/acetabular injuries, proximal humeral arthroplasty for fractures, complex elbow fractures and fracture-dislocations, nonunion and deformity reconstruction, among others.

(Program Director Dr. Barei and 2012-2013 Trauma ACE Dr. Mitchell Bernstein)

(2017-2018 Trauma ACEs, from left: Dr. Garin Hecht, Dr. Justin Lucas, Dr. Michael Talerico, Dr. Sara Putnam, and Dr. David Donohue)

# **Program History**

The University of Washington assumed control of the King County Medical Center, now Harborview Medical Center. Donald Gunn, M.D. was the Chief of Orthopaedics at HMC in 1968-1969, Sigvard T. Hansen Jr., M.D. was the Chief Resident in Orthopaedic Surgery, and D. Kay Clawson, M.D. was the Chief of Orthopaedics for the University of Washington, of which Harborview Medical Center was a major component.

Dr. Hansen visited Gerhardt Kuntscher and learned advanced techniques of medullary nailing. He was involved in the early North American AO/ASIF development and, in particular, worked with Hans Willenegger.

Dr. Hansen became chief of Orthopaedics at Harborview Medical Center and established the roots of aggressive management of long bone and pelvic fractures. In 1973 Drs. Clawson and Hansen attended the AO Course in Davos, Switzerland. Thereafter, stable fixation became the treatment of choice at Harborview Medical Center.

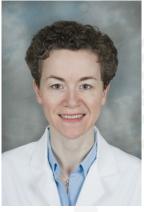

## **Fellowship Faculty**

Program Director:
David P. Barei, MD, FRCSC
Professor of Orthopaedics & Sports Medicine,
University of Washington School of Medicine
Director of University of Washington Trauma
Education

Reza Firoozabadi, MD Associate Professor of Orthopaedics & Sports Medicine, University of Washington School of Medicine

Daphne Beingessner, MSc, MD, FRCSC Professor of Orthopaedics & Sports Medicine, University of Washington School of Medicine

Michael Githens, MD, MS
Assistant Professor of Orthopaedics &
Sports Medicine,
University of Washington School of
Medicine

**Stephen Benirschke, MD**Professor of Orthopaedics & Sports Medicine,
University of Washington School of Medicine

Jonah Hebert-Davies, MD Assistant Professor of Orthopaedics & Sports Medicine, University of Washington School of Medicine

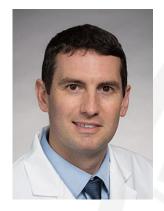

Robert P. Dunbar Jr., MD Associate Professor of Orthopaedics & Sports Medicine, University of Washington School of Medicine

M. Bradford Henley, MD, MBA Professor of Orthopaedics & Sports Medicine, University of Washington School of Medicine

# Fellowship Faculty (cont'd)

**Conor Kleweno, MD**Associate Professor of Orthopaedics & Sports Medicine, University of Washington School of Medicine

**Sean Nork, MD**Professor of Orthopaedics & Sports Medicine, University of Washington School of Medicine Chief, Orthopaedic Trauma, Harborview Medical Center

Lisa Taitsman, MD, MPH
Professor of Orthopaedics & Sports Medicine, University of Washington School of Medicine

# **Fellowship Specifics**

The OTACE takes approximately 6 calls per month averaged over the year. The primary on-call responsibilities in the hospital belong to the junior and senior UW HMC orthopaedic residents. Commonly, one junior resident is assigned to the ward, and one to the Emergency Department. The OTACE may take call from home, or in the hospital with the team. An attending faculty member participates on call with the team each night.

The OTACE works in the assigned team's orthopaedic clinic one day per week. The OTACEs clinical responsibilities include operative procedures as surgeon and assistant, daily ward rounds, and emergency patient care along with the chief or junior resident. The average ward census for an ACE is fifteen to twenty patients covered primarily by the junior orthopaedic resident, supervised by the chief resident. One elective operating day per attending is assigned, and other operative procedures are scheduled throughout the week.

At least one basic science or clinical project is required during the year. Ideally, a clinical project is a prospective clinical trial. A trauma data base facilitates other clinical projects. The facilities for basic science research are located in the new Research Building at Harborview. Biomechanical studies related to internal fixation of numerous fractures have been designed and implemented by former OTACEs. Similarly, almost any investigation can be developed.

## Trauma Rotation Weekly Schedule

	BLUE	GREEN	RED	FOOT/RESEARCH	PELVIS
MON	HMC Operating Room	HMC Operating Room (Hebert-Davies)	HMC Operating Room	Pelvic Clinic: 1-West Trauma Clinic	HMC Operating Room
TUES	1-West Trauma Clinic	HMC Operating Room (Kleweno/Nork/ Taitsman)	HMC Operating Room (Firoozabadi or Henley)	HMC Operating Room (Benirschke)	HMC Operating Room
WED	HMC Operating Room (Beingessner)	1-West Trauma Clinic	HMC Operating Room (Dunbar)	HMC Foot & Ankle Clinic	HMC Operating Room (50% of time)
THUR	HMC Operating Room (Barei)	HMC Operating Room (Kleweno/Nork)	1-West Trauma Clinic	HMC Operating Room (Pelvis or Benirschke)	HMC Operating Room
FRI	HMC Operating Room	HMC Operating Room	HMC Operating Room (Githens)	HMC Operating Room (Benirschke)	HMC Operating Room

## Meet Our Current Trauma ACEs

#### Jerad Allen, MD

Dr. Allen received his Doctor of Medicine in from the University of Kentucky College of Medicine in Lexington, KY. He completed his orthopedic surgery residency at the University of Kentucky College of Medicine in Lexington, KY.

Robert Jacobs, MD

Dr. Jacobs received his Doctor of Medicine in from the Medical College of Wisconsin in Milwaukee, WI. He completed his orthopedic surgery residency at the University of Vermont Medical Center in Burling, VT.

### Kimberly Jacobsen, MD

Dr. Jacobsen received her Doctor of Medicine from the Wayne State University School of Medicine in Detroit, MI. She completed her orthopedic surgery residency at the St. Louis University School of Medicine.

## Jennifer Tangtiphaiboontana, MD

Dr. Tangtiphaiboontana received her Doctor of Medicine from the University of California, San Francisco in San Francisco, CA. She completed her orthopedic surgery residency at the University of California, San Francisco in San Francisco, CA.

## Robert Wojahn, MD

Dr. Wojahn received his Doctor of Medicine from Washington University in St. Louis in St. Louis, MO. He will complete his orthopedic surgery residency at Washington University in St. Louis in St. Louis, MO.

## Harborview Trauma ACE Alumni

- 2018 David Donohue, Garin Hecht, Justin Lucas, Sara Putnam, Michael Talerico
- 2017 Joseph Cohen, Adam Hirschfeld, Kevin Murr, Motasem Refaat, Nicholas Romeo
- 2016 Timothy Alton, Matthew Garner, Michael Githens, Justin Haller, Matthew Sullivan
- 2015 John Lee, Mara Schenker, David Shearer, Paul Toogood, Brandon Yuan
- 2014 Thomas Fishler, Jonah Hebert-Davies, James Learned, Milton Little, Clay Spitler
- 2013 Mitchell Bernstein, Geoffrey Marecek, John Scolaro, Joshua Shatsky, Edward Westwick
- 2012 Mark Adams, Jonathan Eastman, Reza Firoozabadi, Thomas Large, Jason Schneidkraut
- 2011 Richard Barber, Anna Miller, John Munz, Soren Olson, Lorra Sharp, Mark Steeves
- 2010 Julius Bishop, William Cross, Gregory Dikos, Donald Glasgow, R. Allan Maples, Christopher McAndrew
- 2009 Leo Calafi, Medardo Maroto, Saam Morshed, Chinedu Nwosa, F. Parke Oldenburg, Robert Orec
- 2008 Michael Brennan, Andrew Evans, Jason Evans, Michael Gardner, Zachary Roberts, Raymond Wright
- 2007 Erik Kubiak, Samir Mehta, Amer Mirza, Eric Putler, Hobie Summers, Darius Viskontas
- 2006 Ginger Bryant, Matthew Graves, Craig Greene, James Howard, Timothy O'Mara, Brad Yoo
- 2005 Joseph Conflitti, Gregory Della Rocca, Arturo Gomez, Gregory Osgood, David Weiss
- 2004 Daphne Beingessner, Eric Farrell, Andrew Howlett, Robert Molnar, Paul Stafford
- 2003 Chad Coles, Robert Dunbar, E. Mark Hammerberg, David Polonet, Carla Smith
- 2002 Matthew Camuso, Patrick McNair, Lisa Taitsman, Adam Wagshul, Patrick Wiater
- 2001 William Ertl, Coleman Fowble, James Ringler, Heather Vallier
- **2000** David Barei, Robert Hymes, Thomas Schildhauer, Alexandra Schwartz
- 1999 Roderick Kuo, Anthony Sanzone, Daniel Segina, Nirmal Tejwani
- 1998 Peter Cole, Clifford Jones, Sean Nork, George Russell
- 1997 Susan Harding, Edward Harvey, Matthew Mormino, John O'Byrne
- 1996 Carey Clark, Bharat Desai, James Krieg, Gregory Thomson
