

It has been 18 years since we left Seattle and moved to Chicago. Luckily, I have been in basically the same position at UIC for that time. I have been fortunate to be busy clinically and academically. I also have been fortunate to have trained some talented physicians, several of whom have joined the ASES and/or have busy shoulder and elbow practices.

In 18 years, I have gone from one son to two

I have received quite a few grey hairs and hopefully some wisdom, while Rosie literally has no more than THREE grey hairs, or one for each of her boys!

I no longer have a car. I either Uber or bike (rideshare) to work and run home usually 3 days/week from work unless it is very icy.

I have run the last 5 Chicago Marathons.

I turn 50 this coming year, and my 25th year anniversary is coming up.

I have seen the Cubs win a World Series in my lifetime!

I am blessed!

Ben
